Dear Parent/Carer,

June End of Year Exam Results

Please find the results for your child's recent End of Year Exams attached.

Year 10 have taken the recent June Exams very seriously, showing a quiet determination not to let the events of the past two years undermine their ambition to achieve. As always, consistent attendance to lessons, engagement with their learning and listening to teachers instructions has proven to be a significant factor in successful exam outcomes. Year 10 are now in a strong position to start Year 11 and prepare for the May 2023 exams.

How can I help my child improve their English, Maths and Science grades?

The best way for students to improve is to work consistently everyday to make themselves more knowledgeable than the day before. With this in mind, we have invested in an online program called Tassomai. All students have a Tassomai account using their school email (USERNAME@bishop.towerhamlets.sch.uk). This is an online program for English, Maths and Science, which can also be accessed via an app on a smartphone.

Students should complete the daily quiz and the program will tailor the questions to match your child's learning needs. Parents will also receive a weekly report of their child's progress.

The End of Year Exam results show a clear link between students who used Tassomai consistently and high achievement.

What happens next?

In Year 11, we will be launching a programme of additional support for students which will include, amongst other things, Saturday School, afterschool intervention and targeted in class support. The next set of Grade Indicator Exams are November 21st - December 2nd. These grades will be used as the basis for Sixth Form applications and subsequent offers. In the meantime, if you have any questions or queries, please do not hesitate to contact me.

We congratulate all students on their achievements.

Yours sincerely,

Mr M Farrow

Deputy Headteacher – Achievement
