

## Bishop Challoner Catholic School

7<sup>th</sup> February 2024

Dear Parents/Carers,

I hope this letter finds you well. As we approach the halfway mark of this term, I wanted to remind you of the essential equipment your child needs for their mathematics studies. It is imperative that they have these items readily available to facilitate their learning and progress in the subject.

Below is a list of the required equipment:

1. Scientific Calculator
2. Compass
3. Protractor
4. Ruler
5. Pencils
6. Pens (black and green)
7. Erasers

Having these tools on hand enables students to engage more effectively with the mathematical concepts covered in class and complete assignments with accuracy. Furthermore, it fosters independence and responsibility in their academic journey.

Please ensure that your child has acquired all necessary equipment by the start of the half term break. Failure to do so may result in sanctions affecting their participation and performance in math-related activities.

We understand that some families may face challenges in obtaining these materials. If you are unable to procure the required equipment for any reason, please reach out to the head of the mathematics department, Ms Hegarty, at [dhegarty@bishop.towerhamlets.sch.uk](mailto:dhegarty@bishop.towerhamlets.sch.uk). Please include your child's full name and Maths class. We are committed to supporting every student and will work together to find a solution.

Thank you for your attention to this matter. Your cooperation in ensuring your child is equipped for success in mathematics is greatly appreciated.

Yours sincerely

**Ms D Hegarty**

**Head of Maths**
